

Call for lecturers: 36th VHYC yeast conference, May 22-23, 2025
“Sustainable yeast production challenges”
Duesseldorf, Germany

Dear Ladies and Gentlemen,

The European Sustainable Development Goals (SDG) on sustainable and climate friendly production evoke new challenges for the feed/food industry and their supply chains.

You are an expert and developer of solutions for supply chains, energy and climate efficient production & process aspects?

We kindly invite you to present at the **36th VHYC Yeast Conference**, with the focus on “Sustainable yeast production challenges”. The VHYC yeast conference is the international peer-group meeting of yeast technologists and gathers about 90 people from industry, suppliers and academia.

Your contribution could cover one of the following topics:

- Concepts to share SDG related data along the supply chain
- Raw material supply (up-cycling of side streams → zero waste)
- Energy supply (renewable resources → zero carbon)
- New yeast technologies and applications
- Sustainable yeast-related production

We would appreciate to receive your topic and title by **March 03, 2025**. Your lecture can take 25' + 5' for questions from the audience. Please send us a short CV (functional), your abstract (approx. ¼-½ A4 page) and your travel plans by **March 17, 2025**.

If you are not available at the conference date, please forward our request (and lead) to your colleagues. If any young scientists would like to present a poster (5' short lecture) on their current work, please encourage them to contact us.

Your abstract will be part of the 36th VHYC conference program, on-line available via “36-vhyc-2025.konferenz-hub.de” from **March 21, 2025**

Conference fees:

You as a lecturer are invited on both conference days and the convivial evening program free of charge. Co-authors may participate at reduced academia fees. Your travel costs get reimbursed after receipt of your proceedings manuscript, best until **July 25, 2025**.

If any questions remain, please contact us via e-mail or phone. Thank you in advance!

Conference Office: Mr. Felix Beier +49 30 814 544 970
